

Our September' meeting should be well publicized, focusing on 2 major issues:

1. Depending on the status of the Rimrock Energy project, I would like to schedule their presentation. This should give them plenty of time to prepare and address the community concerns raised previously.
2. Detailed discussion on the school bond issue and our role in a voter education drive.

October's schedule should also be well publicized in advance and focused on the following items. We might want to move the meeting time up to 5:00:

1. Supervisor Davis is tentatively scheduled for our October meeting. He generally addresses County-wide issues during his presentations which this year is sure to include the affects of the latest budgets, tax issues and the school bond issue follow-up
2. I have scheduled the County's Regional rails presentation for this meeting which will take up a considerable amount of time. The BC area representative on this committee will also be available for this meeting.
- 3.
4. Kayo has indicated that her committee might put together a water weekend in October. If that happens, we will want to include any last minute reports and assignments for this as well.

**November:** - Keeping You and Your Family Safe

Workshop Meeting: Sherriff Waugh and Lieutenant Parkison updates on community law enforcement, Emergency Notification Systems, Guns Safety & permitting;

Block Watch projects sponsored by LMPOA & MEPOA;
